

Product: Ledway Street

Project data: Actually the project include 80 Ledway Street fixtures with 40 LEDs each (two light bars) equipped with asymmetric road optic (TS type). Ledway Street luminaires are mounted onto 8 mt. height poles and interdistance of 30 meters. Road width 6,8 mt. and sidewalks (on both street side) 1,5mt.

Lighting performance: Luminance levels obtained with Ledway Street 40 LEDs fixtures: 0,5 cd/m² average on the ground $U_0=0.53$, $U_1=0.83$ and $T_i=7,57$.

LEDWAY – UNCOMPROMISING BRILLANCE
